The Scale Unlimited Hydroplane Master Hull Roster is the governing document for the NAMBA Scale Unlimited Hydroplane class of racing. This document contains the name and details that identify each boat so that they may be built for R/C Scale Unlimited Hydroplane competition at NAMBA sanctioned races. Principle dimensions for each full size craft are listed if known. Appearing underneath each principle dimension (in parenthesis) is a tolerance for 1/8 scale craft.

Each hull has been identified with a "Hull number" consisting of 4 digits. The first two digits indicate the year in which the hull first ran, and generally, (not always) the second two digits indicate the "number" with which the hull first ran with. Detailed National rules for the Scale Unlimited Hydroplane class can be found in the NAMBA rule book.

Dimensions are measured in the following manner:

- A. Length** (+/- 1.0 inch)
- B. Width** (+/- 10 percent)
- C. Tunnel Width** (+/- 10 percent)
- D. Hull Depth** (+/- 10 percent)
- E. After plane Length** (+/- 10 percent)

LENGTH – This is the overall length of the boat as measured from the most forward point of the basic hull to the rear most point of the basic. (Note: Tiplets and rear sponsons are not part of the basic hull)
Allowable tolerance is +/- 1 inch.

WIDTH – This is the maximum overall width of the boat. Allowable tolerance is +/- 10 percent.

TUNNEL – This is the tunnel width or sponson separation of the boat. Allowable tolerance is +/- 10 percent.

DEPTH – This is the maximum thickness of the hull. Allowable tolerance is +/- 10 percent.

AFTERPLANE LENGTH – This is the distance measured from the rear of the sponson to the rear most point of the basic hull. Allowable tolerance is +/- 10 percent.

PICKLEFORK DEPTH – For pickle fork hulls only. Pickle fork Depth is not a principle dimension as listed in the rule book. The dimension is listed here for reference only. This is the distance from the forward most point of the boat to the leading edge of the boat between the sponsons. Suggested allowable tolerance is +/- 10 percent.

An "M" listed under the hull number indicates the listed dimensions have been taken by measurement of the actual boat.

A "P" listed under the hull number indicates the listed dimensions have been taken from plans of the actual boat.

For detailed rules, see the NAMBA rule book and District rules from the area in which you plan to compete.

NOTE: Boats should be measured to the nearest 1/16 " and not exceed the maximum or minimum tolerances.
